The Complete Experience Package

Calm walks and a confident life with your dog.

You didn't get a dog to dread the park, cross the road or skip the pub garden. This is an extremely personal 8-week programme that takes you and your dog through every situation you've been avoiding, one at a time, until each one becomes something you enjoy. I'm with you every step, and nobody else offers anything like this.

Spaces are limited. 2 private clients per month, by application only.

The Confidence Guarantee

This is a life changing package.

I promise to do everything in my power to help you experience everything you ever wanted to with your dog. I will make sure you feel ready for anything and I will be with you every step of the way.

At your assessment we agree 3 to 4 specific goals in writing, such as "sit through a coffee at a café." If you attend your sessions, follow the plan and do the homework, and your dog hasn't reached those goals by the end, I'll keep working with you with up to 4 extra sessions at no cost until you get there.

Is this for you?

- Your dog is reactive, nervous or struggles around other dogs, people or noises
- You are embarrassed or worried about walking your dog
- Worried what other people think of you
- Walks have become something you dread, avoid or do at 5am to dodge everyone
- You feel judged, embarrassed or alone in this
- You want focused, extremely personal service
- You want a trainer who knows you and your dog personally and is there when it gets hard
- You want someone to motivate you and make you feel like you can do anything

What happens in your sessions?

Your 6 one-to-one sessions

These take place at your home and/or public places of your choice. This is where we work on the skills and training mechanics. We use training games and ways of growing your dog's brain, and work through all aspects of training.

Your 6 Experience Days

These are different. Experience Days are about visiting the places you've always wanted to go with your dog, with me beside you every step of the way. It's where you put your new skills into practice and enjoy the life you pictured when you got your dog.

12
sessions with me

6
solo training walks

Your assessment, 2 stooge dog sessions and handler and household session are on top of that.

Or a £495 deposit followed by 2 payments of £500.

Questions people ask

What if my dog isn't ready for the café or beach yet?
Experience Days happen when your dog is ready. If one isn't done by the end of the programme, it carries into the guarantee period or we agree an alternative.

Can you take any dog?
Not every dog. If there's a serious bite history or a medical issue behind the behaviour, I'll refer you to a veterinary behaviourist or your vet, because it matters more that your dog gets the right help than that I take the booking.

What does "priority access" mean?
You get asap same-day replies during my working hours, before anyone else, a weekly video review and live help after a tough walk. It's not an emergency service, so if your dog is injured or unwell, call your vet.

What if it doesn't work?
That's what the Confidence Guarantee is for. We agree your goals in writing at the start, and if you've done the work and haven't reached them, I keep working with you.

I've been where you are. I've helped many owners go from lunging, barking and panic to relaxed walks they actually look forward to, and I know how much the confidence of the owner matters.
